Subject: You are invited: Free Biliary Atresia Webinar for Patients & Families | 14 October 2026

Dear Parents, Families, and People Living with Biliary Atresia,

If you or someone you care for is living with biliary atresia, you likely have questions about health, treatment, daily life, or what the future could look like.

On 14 October 2026 at 6 PM (CEST), the European Society for Paediatric Gastroenterology, Hepatology, and Nutrition (ESPGHAN) will bring together healthcare professionals, patient representatives, and families from across Europe for a **Biliary Atresia Family Education Webinar** – and we would love for you to join us!

The webinar is an opportunity to hear practical information and learn more about topics that matter most to families living with biliary atresia.

Together, we will explore:

- ✓ How doctors check and monitor liver health
- ✓ Common health challenges and how they are managed
- ✓ Food, nutrition, and healthy growth
- ✓ Physical activity and staying active safely
- ✓ School, daily life, and emotional wellbeing
- ✓ The latest research and future treatments

✅ What patients and families need most from healthcare services and support organisations

The webinar will include **live translations**, helping patients and families from many countries participate and learn together.

Whether biliary atresia is new to your family or you have been living with the condition for many years, **this webinar is for you.**

Register for free here:

Please share this invitation with any other families who will benefit from attending.

We look forward to welcoming you on 14 October.

Warm regards,

ESPGHAN Committee of Hepatology
